

# Solar Monitor

## SM2-RM (Remote Measuring)

- simple monitoring
- remote measuring (electrometer, gasometer, hydrometer) or determining the status of the connected device
- works as a web server
- sends e-mail with information about the status
- settings for sending alarms
- simple configuration using web interface
- cooperation with the Portal
- comprehensive graphs on [portal.solarmonitor.cz](http://portal.solarmonitor.cz)

### Technical Specification

Binary Inputs	opto-isolated inputs DI1, DI2, DI3
Terminals	Max. diameter of 1,5 mm <sup>2</sup>
Dimensions	36 x 89,7 x 62,2 mm
Installation	DIN rail
Power	9 – 35 V DC, typ. 0,72 W
Operating Temperature	-25 °C to +60 °C
